

# NOC lite

**Simplification in network operation**

**MUGLER**

# NOClite

Your customized End-to-End management system for private 5G networks

## Convincing benefits

- Control of all private 5G networks and all network elements from one central platform
- Fully on-premise or cloud hosted solution design
- CI/CD approach - easy to integrate, set up and use
- Compatible with existing management systems (e.g. for ticketing)
- Multi-tenant and multi-site capabilities

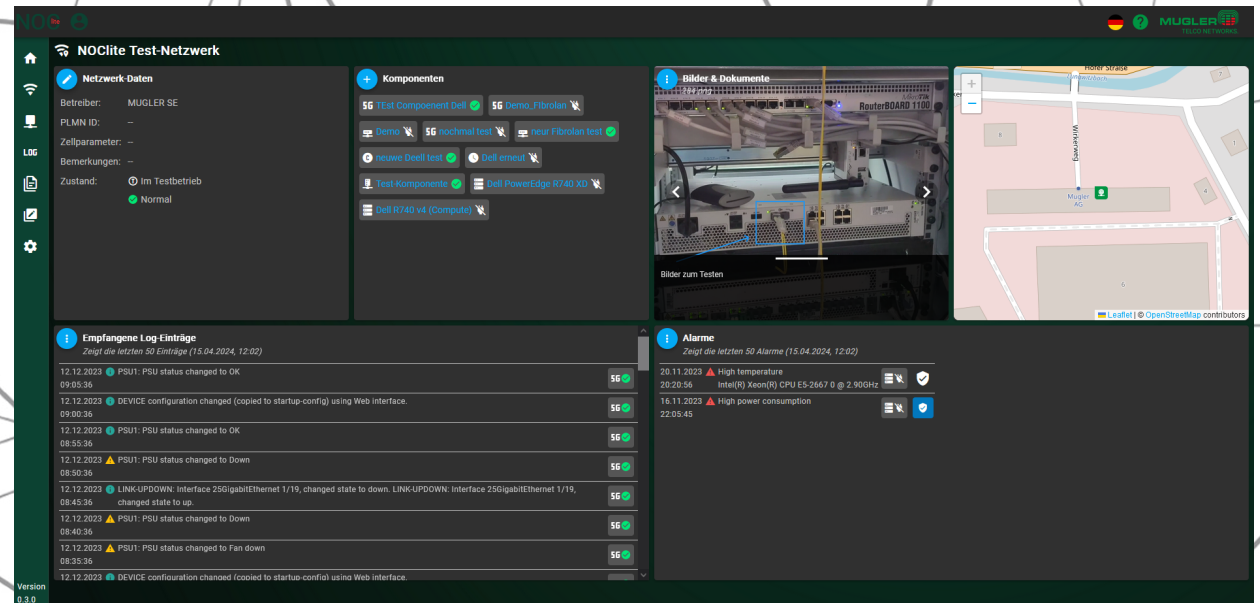

Supported by:

on the basis of a decision by the German Bundestag

## Key features

- Active monitoring and alarming system with site specific details, e.g.
  - Site state
  - Alarms and notifications
  - Logs from the components
  - Open and closed tickets
  - Component specific documents
- IT and OT integration
- User based access
- Scalable and modular architecture using micro services with Docker or Kubernetes
